Profile Summary

Motivated and detail-oriented Flutter Developer with strong knowledge of mobile application development and a passion for creating seamless user experiences. Completed studies in software development with hands-on experience in building responsive, high-performance mobile apps using Flutter and Dart. Proficient in implementing cross-platform solutions, working with APIs, and collaborating within agile teams.

Eager to leverage my technical skills and creativity in a dynamic work environment to contribute to innovative projects.

Projects

Fixit: Service App   *Flutter, Dart, Firebase*   **GitHub**

- Developed **Fixit**, a user-friendly service app designed to connect users with service providers seamlessly.
- Features include user registration, service listings, booking systems, payment integration, in-app messaging, real-time tracking, and customer support.
- Proficient in **Dart**, **Firebase integration**, and **RESTful APIs** to ensure real-time data syncing and efficient app performance.
- Aimed to enhance user experience, streamline operations, and improve convenience through automation and seamless communication.

Enquiry App for Soften Technologies   *Flutter, Dart, Firebase*   Live — GitHub

- Developed an inquiry app for Soften Technologies with an intuitive platform for managing inquiries.
- Skilled in **real-time data updates**, backend integration, and app optimization.
